I always encourage teamwork as the teamwork makes the dream work. The achievements of an organization are the results of the combined efforts of each individual. My team helped me a lot to actualize my vision for the growth and development of this Board. I thought and visualize a dream for Gujranwala Board. My prime aim was to facilitate the students and public to get services from Board in an easiest and dignified way. The other objective was the human resource development and infra-structure development of this Board.

We have revolutionized the service delivery mechanism of Gujranwala Board. For this, we have utilized the tool of digitalization and the use of modern technology. We have finalized different MoU's with different organizations to increase the capacity building of this Board. We have introduced many a new online services to facilitate the students and public at large. It was my dream to install a solar system in this Board. Now the dream is actualized and a solar system is installed with the help of Punjab Energy Department having the capacity to produce 330KV electricity per day. This project will save millions of rupee per annum. In future we have many plans for the betterment of this Board.
